Also try:

ssh timeout number_of_seconds, if you're using SSH.

console timeout number_of_seconds

Thanks,

Subject: [fw-wiz] PIX Authentication Question

I am looking for a way to have authentication timed-out on a direct console connection. e.g. If I authenticate with enable is there anyway to have it automatically log me off after a set time period? I am running a Cisco PIX 520 ver 6.2(2). Any help would be appreciated.

Thanks,

Lee Christie
