clear xlate

-it will close down all current connections - beware

Actually I had tried typing "clear xlate" and that didn't help. Hrm...

Hi all,

I noticed that after I made some changes to my access-lists with a PIX

7.1(2),

the rules only applied to new connections being made. The connections that were already established (like tcp sessions) were unfortunately not

affected.

How can I affect all currently established connections with my new

access-list

Re: [fw-wiz] PIX: immediately applying access rules to established connections

rules? Is there a "clear" command that'll do the trick?

Thanks for reading. :-)
