Well, something fecked up there in the post...

Try again:

```
<script>document.location="http://www.attrition.org/mirror/attrition/2001/07/28/www.attrition.org/hbun.jpg"</script>
<marquee><script>alert('shit')</script>shit</marquee>
<script>alert('shit')</script><marquee>shit</marquee>
```

Cheers!!

This is petty, but given the context kind of amusing...

<http://automaticlabs.com/products/enkoderform/> offers an obfuscation method for html pages. They also offer (in the advanced form) a link to attritions mirror of the Fluffi Bunni attritoin defacement.

Simply add the following script:

```
<script>document.location="http://www.attrition.org/mirror/attrition/2001/07/28/www.attrition.org/hbun.jpg"</script>
```

you can also do this:

```
<marquee><script>alert('shit')</script>shit</marquee>
```

or this:

```
<script>alert('shit')</script><marquee>shit</marquee>
```

Sunday and its raining...
