Drakar Pty Ltd has announced the general availability of Inet Guardian Lite v3.1, a free online service designed to help home users protect their privacy and to protect their computers from malicious users, programs and Internet sites. The new version supports a new simplified user interface and adds over 30 new security and privacy related checks.

How to use:

1. Open Internet Explorer.
2. Navigate to <http://www.drakar.com.au>.
3. Click on "Activate your personal security Advisor" under the "Home Solutions" section.
4. Select your Operating System from the drop-down list and click on Continue.
5. Review the License Agreement and click Accept to begin the online installation.
6. Click Yes if asked whether you want to install and run Inet Guardian Lite.

About:

Inet Guardian Lite is a unique online service that acts as your personal security advisor. This interactive security wizard guides you through the process of hardening your computer to make it more resistant to attack and misuse. In addition, it teaches you about good security practices and helps you to identify and avoid risky online activity.

Inet Guardian Lite is currently able to advise on over 210 potential security and privacy issues, which include topics relating to Web Browsers, Security Zones, System Settings, COM/DCOM Settings, Backdoors, Trojans, Anti-Virus Protection, Service Packs, Network Shares, Registry, File System, Outlook Express and Microsoft Office.

Thanks and enjoy,
Drakar Security Team
