To: NTBUGTRAQ@LISTSERV.NTBUGTRAQ.COM

Well folks, NTBugtraq and TruSecure Corporation would like you to once again participate in one of our surveys. This time its about XP SP2.

I've included branches for everyone, whether you are waiting for some time to begin testing or have already completed your deployment, we'd like to hear from you.

Those that provide their email address will receive the survey results at some point in the future (the time will depend on the number of respondents.) I'll also put some sort of summary information up on the NTBugtraq or TruSecure website as soon as something interesting starts to come out of the data.

It shouldn't take too long to complete the survey, under 30 minutes for sure (most will probably finish it in less than 10 minutes.) Obviously the more people who participate, the better the results will be.

If you provide comments about problems you've experienced, please make sure to be as detailed as you can. Version numbers, product numbers, etc... so a proper list can be achieved (and put up on the NTBugtraq website.)

Here's the link to the survey;

Cheers,

Russ – Senior Scientist – TruSecure Corporation/NTBugtraq Editor

NTBugtraq Editor's Note:

Want to reply to the person who sent this message? This list is configured such that just hitting reply is going to result in the message coming to the list, not to the individual who sent the message. This was done to help reduce the number of Out of Office messages posters received. So if you want to send a reply just to the poster, you'll have to copy their email address out of the message and place it in your TO: field.
