To: NTBUGTRAQ@LISTSERV.NTBUGTRAQ.COM

Since some of you (my self included) may wish to search and replace all versions of gdiplus.dll that are older then the fixed version (taken from the platformsdk update), here is a small program I just wrote that searches all fixed drives (ie, harddrives) and replaces old versions with the new one.

source code (vc2003) and compiled versions included.

http://www.steelbytes.com/temp/gdiplus_fix.zip

no responsibilty taken :-)

Want to reply to the person who sent this message? This list is configured such that just hitting reply is going to result in the message coming to the list, not to the individual who sent the message. This was done to help reduce the number of Out of Office messages posters received. So if you want to send a reply just to the poster, you'll have to copy their email address out of the message and place it in your TO: field.
