The following security advisory is sent to the securiteam mailing list, and can be found at the SecuriTeam web site: <http://www.securiteam.com>

-- promotion

When was the last time you checked your server's security?

How about a monthly report?

<http://www.AutomatedScanning.com> -- Know that you're safe.

November Changelog Madness

SUMMARY

<<http://www.vulnwatch.org>> Vulnwatch has reported that over 20 security-related issues have been found in November in different products. The following is a highlighted summary of these security vulnerabilities, and their corresponding versions.

DETAILS

-- vBulletin 2.2.0

"source code audit by an independent 3rd party for security issues"

-- Redirected Execution Tree 2.3

"A security hole was fixed"

-- SLRN 0.9.7.3

"It also fixes some bugs and one security hole."

-- panFora 1.4.0

"Login security was enhanced by making it much harder to hijack user cookies" (does that mean it was possible to hijack user sessions in older versions?)

Securiteam: [NEWS] November Changelog Madness

– DrvZ42 0.3.2 (Linux Lexmark printer driver)

"Support for photo cartridges and a small security fix to the z42 tool were added"

– GrendelProject 0.4.2
