Phrack #58 Is Out

SUMMARY

<<http://www.phrack.org/>> Phrack Magazine is one of the longest running electronic magazines in existence, and certainly one of the most interesting.

Since 1985, Phrack has been providing the hacker community with information on operating systems, networking technologies and telephony, as well as relaying features of interest to the international computer underground.

The Phrack Magazine team released a new issue of this Magazine, number 58.

DETAILS

Articles included in this issue:

- * Advanced return-into-lib(c) exploits (PaX case study)
- * Runtime binary encryption
- * Advances in kernel hacking
- * Linux on-the-fly kernel patching without LKM
- * Linux x86 kernel function hooking emulation
- * RPC without borders
- * Developing StrongARM/Linux shellcode
- * HP-UX (PA-RISC 1.1) Overflows
- * The Security of Vita Nuova's Inferno OS

ADDITIONAL INFORMATION

The information has been provided by <mailto:staff_rs@phrack.org>
Phrack's Staff.
