

[TOOL] Perl2Exe Reverse Perl Extractor

Source: <http://www.derkeiler.com/Mailing-Lists/Securiteam/2002-01/0105.html>

From: support@securiteam.com

Date: 01/22/02

From: support@securiteam.com

To: list@securiteam.com

Date: Tue, 22 Jan 2002 17:32:14 +0100 (CET)

The following security advisory is sent to the securiteam mailing list, and can be found at the SecuriTeam web site: <http://www.securiteam.com>

-- promotion

When was the last time you checked your server's security?

How about a monthly report?

<http://www.AutomatedScanning.com> -- Know that you're safe.

Perl2Exe Reverse Perl Extractor

DETAILS

Vulnerable systems:

Perl2exe version 5.03

Background:

<<http://www.indigostar.com/>> Perl2Exe is a command line program for converting perl scripts to exe files. This allows you to create stand alone programs in perl that do not require the perl interpreter. You can ship the exe file without having to ship your perl source code.

What does the tool do?

The tool is able to extract the plain text version of the encrypted perl script.

Tool:

/* Reverse Engineered by Chetan Ganatra

Email: ganatrac@infotech.icici.com

18 Jan,2002

Here's a small C code which I have written to extract the perl scripts from

the .exe generated by perl2exe module Ver 5.03 on Windows

You will find perl2exe at www.perl2exe.com or at www.indigostar.com

Enjoy !!!!

Securiteam: [TOOL] Perl2Exe Reverse Perl Extractor

Pass the generated exe file name as a parameter to the program and it will give the output on screen! u can redirect it to .pl
exec2pl [exe.file] > [pl.file]

For any suggestions and improvements do email me at ganatrac@infotech.icici.com

*/
