FlashFXP Local Password Disclosure Vulnerability

SUMMARY

<<http://www.FlashFXP.com>> FlashFXP offers the easiest and fastest way to transfer any file using FTP, providing an exceptionally stable and robust program that you can always count on to get your job done quickly and efficiently. A vulnerability allows local users to discover the FTP passwords used in the product.

DETAILS

Vulnerable systems:

- * FlashFXP version 1.4 (build 800)

Immune systems:

- * FlashFXP version 2.0

When passwords are entered into FlashFXP they are generally echoed with asterisks, but there is an exception. When there are transfers in the queue the password is visible in clear text by editing the queue properties.

Vendor contacted:

E-mailed CEDsoft on 8/31/02. They responded within hours and informed me

Securiteam: [NT] FlashFXP Local Password Disclosure Vulnerability

that they had already known about this vulnerability and that their publicly available beta version already had it fixed.

Solution:

Upgrade to the latest version.
