StoreFront Vulnerable to SQL Injection

SUMMARY

<<http://www.storefront.net/products/6.0/landing.asp>> StoreFront "offers merchants and developers a feature rich, fully customizable e-commerce solution at a fraction of the cost to deploy and maintain". An SQL injection vulnerability in the product allows remote attackers to bypass the login screen, and gain access to sensitive information located in the database, further, depending on the database server backend, command execution will be possible.

DETAILS

Vulnerable systems:

- * StoreFront version 6.0 and prior

There is a SQL injection vulnerability in /login.asp of StoreFront system.

This allows bypassing of the mechanism, and the insertion of malicious SQL statements.
