Buffer Overflow in Avant Web Browser

---

## SUMMARY

<<http://www.avantbrowser.com/>> Avant Browser is "a standalone application designed to expand services provided by Microsoft Internet Explorer". Due to an internal buffer, overflow it possible for a remote attacker to cause the browser to crash.

## DETAILS

Vulnerable systems:

- \* Avant Browser version 8.02

By causing a user to click on a URL that is longer than 780 characters, it is possible to cause the web browser to crash.

## ADDITIONAL INFORMATION

The information has been provided by <<mailto:nimber@mail.ru>> nimber.
