Symantec Multiple Firewall TCP Options Denial Of Service Condition

---

## SUMMARY

<<http://enterprisesecurity.symantec.com/products/products.cfm?ProductID=154>> Symantec Client Security provides "integrated AntiVirus, firewall, and intrusion detection capabilities managed through a central console to provide better and proactive protection against today's evolving blended threats, such as Blaster. The solution provides critical end-point security to prevent intrusions from entering or spreading from connected and non-connected remote and mobile users, as well as from critical systems."

A denial-of-service condition was found in Symantec's Client Firewall products. A remote attacker is able to render a system inoperable with a single TCP packet.

## DETAILS

### Vulnerable Systems:

- \* Symantec Norton Internet Security 2003
- \* Symantec Norton Internet Security 2004
- \* Symantec Norton Internet Security Professional 2003
- \* Symantec Norton Internet Security Professional 2004
- \* Symantec Norton Personal Firewall 2003
