Arudius – Information Security Oriented Live CD Linux Distribution

SUMMARY

DETAILS

Arudius is a live CD Linux distribution based on Slackware (Minislack/Zenwalk) and Linux Live scripts. It contains an extensive set of software tools used by information security professionals for information assurance and vulnerability analysis. Its goal is to include the most complete set of useful security tools and still maintain a small footprint so it can fit on a 210MB mini-CD.

ADDITIONAL INFORMATION

To keep updated with the tool visit the project's homepage at:
