Reason – Nessus Client

SUMMARY

DETAILS

Reason is an application/network security scanner client for Nessus and Nessus compatible (OpenVAS etc.) servers. In addition to an improved user interface, it provides session management, templates, charts/graphs and report generation using XSLT. Reason is cross-platform with platform specific releases available for Linux, Mac, and Windows. It was written in Java using SWT for a native experience, and it is open-source. It's provided by Idealogica, Inc. under the Clarified Artistic License.
