ArGoSoft FTP Server DELE Buffer Overflow

SUMMARY

" <<http://www.argosoft.com/RootPages/FtpServer/Default.aspx>> ArGoSoft FTP Server is a FTP server for Windows95/98/NT, and supports all basic FTP commands, and much more, such as passive mode, resuming file transfers, windows shortcuts to another files, folders and drives (including network drives), virtual domains (multiple IP homes), IP filtering, site specific commands, such as compressing and copying files on the server, changing date/time stamps, and so on."

Lack of proper length validation in ArGoSoft FTP server commands allow attackers to execute arbitrary code or cause a DoS condition and crash the server.

DETAILS

Vulnerable Systems:

* ArGoSoft FTP server version 1.4.3.5 and prior

By supplying a long argument to the DELE FTP command, attackers are able to execute arbitrary code or crash the server duo to a buffer overflow.

[NT] ArGoSoft FTP Server DELE Buffer Overflow
