FireMaster – Firefox Master Password Recovery

---

## SUMMARY

## DETAILS

Firemaster is the Firefox master password recovery tool. Firefox uses master password to protect the stored sign-on information for various websites. If the master password is forgotten, then there is no way to recover the master password and user has to lose all the sign-on information stored in it. To prevent this problem, Nagareshwar has developed FireMaster which uses combination of techniques such as dictionary, hybrid and brute force to recover the master password from the Firefox key database file.
