For monitoring I use BASE <http://secureideas.sourceforge.net/> it is based on the ACID code but is so much nice and faster -----Original Message----- From: just1coder [mailto:just1coder@yahoo.ca] Sent: Friday, April 29, 2005 10:17 AM To: focus-ids@securityfocus.com Subject: SNORT + Win32 Hi, I'm using SNORT and Win32 – so far so good. Are there any tools available commercial or otherwise for monitoring the logs and building reports? Thanks

----- Stop hurting your network! The NeVO passive vulnerability sensor continuously finds vulnerabilities, applications and new hosts without the need for network scanning. It also finds compromised systems with application-based intrusion detection. Go to <http://www.tenablesecurity.com/products/nevo.shtml> to learn more. -----
