There are a few articles here

http://oss.software.ibm.com/linux/pubs/?page=2&topic_id=5

SuSE Linux EAL2 Plan

http://ltp.sourceforge.net/docs/EAL2_test_plan_1.9.htm

... Randy Golly

Subject: Linux security compliance

Hi all,

I am searching for any information that if Linux is compliant to C2 or Command Criteria. However, I could find any good references in the web.

Do you know if there are any good guidelines/documents talking about how to make Linux a trusted system?

Thank you very much.

Regards,

Pong
