Talisker,

Consider also "WepCrack", a tool exploiting the RC4's key scheduling weakness (also announced in Bugtraq, August 12, 2001) .

Source code (in Perl) can be found at

<http://sourceforge.net/projects/wepcrack/>

Check the following link as well

<http://www.personaltelco.net/index.cgi/WirelessSniffer>

Good luck!

Dimitrios G. Patsos
