W00t! DEF CON 14 is now in effect! The Call for Papers is open.

This is a short announcement to let everyone know that we are opening the call for papers for DEFCON 14 – the annual gathering of subversive computer folks. Earlier submissions are given higher priority, so prepare your best kung-foo grip, and send it our way. Remember, we are always looking for original and highly technical content, unusual subject matters, software releases, innovative hardware hacking, and generally mind-blowing content. Check out past convention archives to get an idea of what we are talking about.  
<http://www.defcon.org/html/defcon-14/dc-14-cfp.html>

DEF CON 14 will be August 4–6 at the Riviera Hotel & Casino in Las Vegas. Did you notice that? It's a new hotel this year! See [www.defcon.org](http://www.defcon.org) for more general information. A more complete announcement will be released in a month or so with details of contests and content.
