And once more for the list...

Re: Most important UDP ports?

Hi,

10 Ports?

53 udp DNS, 123 udp ntp, 88 udp Kerberos, 389 udp ldap, 69 udp tftp, 111 udp sunrpc, 137, 138, 139, 445
udp microsoft

I think for 10 Ports, it is pretty much what you should.

Any other oppinions from the list?

misiu

Betreff: Most important UDP ports?

Hi,

I have read some discussions that explain why UDP scanning is so slow.
Now, I want to scan a network but I have time constrains. Which, for
example, 10 UDP ports will you scan if you had a limited quantity of
time to perform the scan?
