Check it out:

Triplebit just released S.O.S.Automation at www.sosautomation.netfirms.com .
Its a versatile alarm system especially to emergency/medical/baby
applications. Most important – its FREE
until the end of this month. Its main features are:

Various voice trigger criteria.

Supports real-time audio monitor (and talk back with a speakerphone modem).

Voice booster – enhanced audio monitor.

Can dictate you the PC IP address to a remote telephone.

Supports real-time video monitor (with web camera and internet).

Fully control the PC from remote (with internet).

Be directional communication – you can call S.O.S.Automation and have all
features.

Immediate installation and use.

Handy for nonprofessional computer users.

Automatic answering machine support – doesn't need a special telephone line.

Supports Windows 95/98/Me/NT/2000/XP.
