It just keeps getting more interesting AND frustrating at the same time!!!

AIX 4.3.3 w/ML11, AFS/NIS – WORKING w/password & public-key auth, but  
does not get new tokens (not an issue yet)

AIX 5.1 w/ML5, AFS only – WORKING w/password, public-key works ONLY if  
sshd is started in debug mode (gets new tokens also, btw)

AIX 5.1 w/ML5, AFS/NIS – NOT WORKING
