

Digest authentication problem

I am trying to use a web service using HTTP Authentication, it works fine if I use Basic or Windows Authentication (on IIS 5.0), but when I use Digest authentication I get an HTTP error "401:Access Denied".

I already configured the webservice directory on ISS 5.0 to work with digest authentication.

This is the code I use:

```
objService = New webService()  
Dim objCredential As New NetworkCredential  
("LOGIN", "PASSWORD")  
Dim objCache As New CredentialCache()  
  
objCache.Add(new Uri(objService.url), "Digest",  
objCredential)  
objService.Credentials = objCache  
objService.PreAuthenticate = true
```

Anyone has a CLUE?

Thanks in advance,

Javier Duran
