>If these are "Messenger Service" popups, Spybot won't help. Here's some info on them:

><http://www.lavahelp.com/articles/v6/03/05/0302.html>

>Ad-aware has a new plug-in (since yesterday) that will help with "Messenger Service" popups. Download and run Adaware (free version) from

><http://majorgeeks.com/download.php?det=506>

>It detects and safely removes dataminers, tracking cookies, dialers, BHO's and other objects from your computer. This link will help you configure AAW for your first scan: <http://www.lavasoftsupport.com/index.php?showtopic=11613>

>If you have any questions, their forums are here:
