Hi Laura

<http://www.doxdesk.com/parasite/InternetOptimizer.html>

Download and scan your system with Ad-Aware SE and Spybot Search & destroy
They can be found at these links. Good Luck

Sometimes,when you remove malware it will stop your TCP/IP
stack from working (Internet connection).

Winsock or LSP-fix will correct the problem,Download first.

YES-You need more than 1 malware program,the one's below are all free
and work well.

LSP-fix- <http://www.cexx.org/lspfix.htm>

Spybot S&D - <http://www.safer-networking.org/en/index.html>

CWS Smart Killer- <http://www.safer-networking.org/minifiles.html>

About Buster- <http://www.spychecker.com/program/aboutbuster.html>

Ad-Aware SE -
