–Our page with some details about the MSI re-packaged installer.
<http://accentconsulting.com/wmf.shtml>

–Author's official website <http://www.hexblog.com/> (due to load, his site was moved to a different server last night, if the previous link comes up with an error page, use this link <http://216.227.222.95/>)

–Well wrote description of the problem and links to the author's website
<http://www.grc.com/sn/notes-020.htm>
