**Title:** Unchecked Buffer in MDAC Function Could Enable System Compromise (823718)

**Date:** August 20, 2003

**Software:** Microsoft Data Access Components 2.5; Microsoft Data Access Components 2.6; Microsoft Data Access Components 2.7

**Impact:** Run code of the attacker's choice

**Maximum Severity Rating:** Important

**Bulletin:** MS03-033

The Microsoft Security Response Center has released Microsoft Security Bulletin MS03-033

## What Is It?

The Microsoft Security Response Center has released Microsoft Security Bulletin MS03-033 which concerns a vulnerability in Microsoft Data Access Components versions listed above. Customers are advised to review the information in the bulletin and test and deploy the patch in their environments, if applicable.

More information is now available at

<http://www.microsoft.com/technet/security/bulletin/MS03-033.asp>

If you have any questions regarding the patch or its implementation after reading the above listed bulletin you should contact Product Support Services in the United States at 1-866-PCSafety (1-866-727-2338). International customers should contact their local subsidiary.
