=====
How to Use AutoComplete Feature Internet Explorer 5 and 6

<http://support.microsoft.com/?kbid=217148>
=====

There are lots of autocomplete features in XP.

Google history is at the bottom.

Your Outlook Express Password Is Not Retained in Windows
2000 or XP

Re: "search" history

DelTypedURL.inf

visit this site: <http://>

<http://mvps.org/winhelp2002/delcache.htm>

<http://mvps.org/winhelp2002/delcache.htm#AutoComplete>

DelTypedURL [right-click and select: Save Target As]

Removes the URL's from the Address Bar drop-down list
without deleting the Internet Explorer History.

To use: right-click and select: Install

Note: this does not remove entries entered via
AutoComplete.

=====

Internet Explorer 6.0 window:

-->Tools button

--->Internet options

---->Content tab

----->Autocomplete button

Use AutoComplete for:

Web addresses

Forms

User names and passwords on forms

Make desired changes on options.

Internet Explorer 6.0 window:

--Tools button

---Internet Options

----Advanced tab

-----Browsing (list)

----- Show friendly URLs

----- Show friendly HTTP error messages

----- Use Inline AutoComplete

Make desired changes on options.

Internet Explorer 6.0 window:

-Tools (button)

-Internet Options

-Click Advanced (tab)

In listing find:

-Search from the Address bar

---When searching

() Display results, and go to the most likely site.

() Do not search from the Address bar.

() Just display the results in main window.

() Just go to the most likely site.

Make desired changes on options.

In Start 'Search' window:

Re: "search" history

- Left column pick "More advanced options" chevron
- Slide down & pick "Change preferences"
- Pick "Turn autocomplete on/off"

=====

In Start 'Search' window:

- Slider down & pick "Change preferences"
- Pick "Without an animated screen character"

=====

Google toolbar history:

- Click on small triangle next to word google
- Click on clear history or recent history.
