That applies only to Windows Messenger v5.0 running in Win2K SP4, WinServer 2003, and Win XP SP1 & SP2.

No one here "is" Microsoft, Tony. You may contact MS Product Support Services in the United States at 1-866-PCSafety (1-866-727-2338). International customers should contact their local subsidiary at the number located at <http://support.microsoft.com/security>.
