Hi Connie,

Please check:

ID: Q246133 INF: Transfer Logins and Passwords Between SQL Server 7.0 & 2000

Thank you

Hina Masud

RE: Keeping passwords in SYNC across servers

microsoft.public.sqlserver.security: RE: Keeping passwords in SYNC across servers

-
- Does anybody know of a way to keep user password in sync
- across multiple SQL Servers. We are using Mixed mode on
- SQL 7. We allow the users to change their passwords on
- the server they are connected to, but we want it to
- automatically change the passwords on the other 2 sql
- servers also. Any suggestions?
-
