Apologies – this post should be a reply for an earlier post – see below.

Len.

Len,

More detailed info can be audited using the Profiler.

Check the "Monitoring with SQL Profiler" part in Books OnLine (mk:@MSITStore:C:\Program%20Files\Microsoft%20SQL%20Server\80\Tools\Books\adminsql.chm::/ad_mon_perf_86ib.htm).
