I set mine to be by the SQL Server Agent user ID I created to run the agent.

That way I never get a problem if someone leaves.

>-----Original Message-----

>sqlserver defaults my user id as the owner of new jobs i create.

>if my account gets deleted from ad when i leave this company, those jobs will fail..correct?

>

>i was thinking to use the AD service account i use to run the sql agent service. it has full rights in sql server, but limited on the server...good idea or bad?

>

>if my account has full rights in sql server and the server...that would be a bad idea to run the job using my credentials...correct?

>

>or do people create a new account, like a job\_owner account, and use that one to run the jobs?

>

>what do people generally set as the job owner?

>

>thanks
