Is it possible for profiler to show which password is used when a user logs
> to a sql server

Hehe, no that would be a security leak ;-)) there has been an issue on some
providers in 7.0 but its fixed now in those which i know.

> a sql server and the users ip

No, as far as i know there is only the way to get the Hostname, once i wrote
a Function to get the IPAdress, but it was only used in TSQL rather than
profiler.

HTH, Jens Suessmeyer.
