Microsoft /Citrix Certified Consultants–Toronto–Full time

We are looking for Microsoft Certified System Engineers (MCSE) with Citrix MetaFrame certified consultants. Must have certifications in both. Candidates will be differentiated by the level of Citrix expertise.

### Qualifications

Minimum seven years of administration or technical support experience in a production Microsoft NT/2000 server environment

Must be certified MCSE, CCA and/or CCEA

College diploma or University degree in an IT-related discipline

Strong knowledge of TCP/IP networking

Good understanding of routed networks, DNS, DHCP

Excellent communication skills, both oral and written

Must be a team player but also be able to work independently and unsupervised

Strong time management and project management skills

Proficient with PC and server software

Valid driver's license and able to travel to clients sites

Additional Networking (Novell, LAN, WAN, Internet, Cisco)

Microsoft (SQL, SMS, IIS, Exchange)

Firewalls, VPN

Please send salary expectations, resume and cover letter highlighting the above mentioned

qualifications to [sdawson@bluelime.ca](mailto:sdawson@bluelime.ca).
