After searching endlessly for a way to get rid of that forgotten password, take a break, there is an answer. It is so simple and quick to fix when you know where to go.

To Disable the Content Advisor Password:
Paste the following URL in your internet explorer address bar and follow the directions.
http://www.hawaiian.net/support_template.php?p=48

I wish I had've found this sooner. Hope this helps someone else to.
