Its a security template being applied via group policy, I think it was the securews.inf found in winnt\security\templates.

After enabling logging I've found the following errors in the winlogon.log file, would they cause the problem?

Warning 2: The system cannot find the file specified.

Error opening

machine\software\classes\appid\{6295df2d-35ee-11d1-8707-00c04fd93327}.

Warning 2: The system cannot find the file specified.

Error setting security on

machine\software\classes\appid\{6295df2d-35ee-11d1-8707-00c04fd93327}.

Warning 2: The system cannot find the file specified.

Error opening

machine\software\classes\clsid\{6295df27-35ee-11d1-8707-00c04fd93327}.

Warning 2: The system cannot find the file specified.

Error setting security on

machine\software\classes\clsid\{6295df27-35ee-11d1-8707-00c04fd93327}.

Configure

machine\software\classes\clsid\{6295df2d-35ee-11d1-8707-00c04fd93327}.

Warning 2: The system cannot find the file specified.

Error opening
