Andy,

If you only used file permissions and not e.g. EFS (Encrypted File System) then all you need to do is take ownership of the folders and files. After this, you will have full access to your data.

How to take ownership of a file or folder in Windows XP

<http://support.microsoft.com/default.aspx?scid=kb:en-us:308421&sd=tech>

I hope this helps,

Mike
