I don't know exactly what you are comparing it to but backup programs will use compression when backing up data. Windows has the windiff utility that you can use to compare files and there are third party tools that can work on more types of files as shown in the second link below. ---- Steve

<http://support.microsoft.com/default.aspx?scid=kb:en-us:159214> -- windiff
http://www.prestosoft.com/ps.asp?page=edp_examdiff ---- examdiff free version
