In article <433B1A09-F734-47CB-8B4D-7B14C041F199@xxxxxxxxxxxx>, in the microsoft.public.win2000.security news group, =?Utf-8?B?V2luYW5qYXlh?=<Winanjaya@xxxxxxxxxxxxxxxxxxxxxxxxxxxx> says...

Hi..
below are my steps:

1. Active Directory Users & Computers
2. Right click on OU -> Properties
3. Group Policy -> Edit
4. Computer Configurations -> Windows Settings -> Security Settings -> System Services -> Messengers
5. Define this policy settings, checked, then select Disabled radio button -> Ok

our clients run on Windows 2000 Pro SP4 and Win XP SP2 .. I tested on Windows 2000 Pro SP4 and not working.. meant the service still enabled and started..

I need advise..

Just to be clear we're talking about the Messenger service and not Windows Messenger or MSN Messenger, correct?

It all began with Adam. He was the first man to tell a joke—or a lie. How lucky Adam was. He knew when he said a good thing, nobody had said it before. Adam was not alone in the Garden of Eden, however, and does not deserve all the credit; much is due to Eve, the first woman, and Satan, the first consultant." – Mark Twain
