Hello,

I am facing following error :-

OS: Windows 2003 Enterprise Edition

Event id : 11 Source: crypt32

Failed extract of third-party root list from auto update cab at:

<<http://www.download.windowsupdate.com/msdownload/update/v3/static/trustedr/en/authrootstl.cab>> with error: A required certificate is not within its validity period when verifying against the current system clock or the timestamp in the signed file.
