Adding contact works fine but when they try to establish an Email address they are not allowed, and in my case they are adding them to establish an SMTP address, thats why they add an contact.
Could you help me there too ?

Our site went the route of creating a custom delegwiz.inf file that allowed us to use delegate wizard to dish out the appropriate rights the group should have on said OU. Here is a copy of our custom inf file. You would be interested in template 240.

```
[Version]
signature="$CHICAGO$"
```

```
[DelegationTemplates]
```

```
Templates = template130,template140,template180,template210,template240
```

```
;-----
```

```
[template130]
AppliesToClasses=organizationalUnit
```

```
Description = "Create, delete, and manage user accounts"
```

```
ObjectTypes = SCOPE, user
```

```
[template130.SCOPE]
user=CC,DC
```

```
[template130.user]
CONTROLRIGHT= "Reset Password"
@=WP
```

Re: Specific permission to add new contacs

```
;-
;-
[template140]
AppliesToClasses=organizationalUnit

Description = "Create, delete, and managed groups"

ObjectTypes = SCOPE, group

[template140.SCOPE]
group=CC,DC

[template140.group]
@=WP
;-
;-
[template180]
AppliesToClasses=organizationalUnit

Description = "Create, delete, and manage computer accounts"

ObjectTypes = SCOPE, computer

[template180.SCOPE]
computer=CC,DC

[template180.computer]
CONTROLRIGHT= "Reset Password"
@=WP
;-
;-
[template210]
AppliesToClasses=organizationalUnit

Description = "Create, delete, and manage an OU"

ObjectTypes = SCOPE, organizationalUnit

[template210.SCOPE]
organizationalUnit=CC,DC

[template210.organizationalUnit]
@=WP
;-
;-
```

Re: Specific permission to add new contacs

[template240]

AppliesToClasses=organizationalUnit

Description = "Create, delete, and manage contacts"

ObjectTypes = SCOPE, contact

[template240.SCOPE]

contact=CC,DC

[template240.contact]

@=WP

I want a group of users to be able to add new contacts under a specific OU
but I can't find out how ? I don't want them to be able to create new
users and groups.

I've tried to give them All permissions on object contact in that OU but
they are still not able to create new ones.

Can you help me out ?

Sincerely

\\Jonas B
