i have windows xp home edition, when i try to use recovery console i cant. i try from install cd and the recovery console is installed on my hard drive, when i try to login it asks me for administrator password, i enter the CORRECT password, and it wont let me, i change administrator password in safe mode so that there isnt one, and it still wont let me go into recovery console, i change it again to something simple and it wont let me login to recovery console, it just keeps coming up as invalid password even though it is correct, and Case is not the problem, trust me, i enter the correct administrator password and it wont let me login, i even tried passwords for other users of the computer(owner and another user) please help!!!! if you cant help me, then how could i go by formatting my hard drive(i cant login in to recovery console remember) to install windows xp?? please help!!
