Steve, please forgive me if I am wrong, but shouldn't it be:

```
expand D:\i386\gpedit.ms_ c:\windows\system32\gpedit.msc
```

|

| You can re-load gpedit.msc from your Windows XP Professional CD-ROM.

| Boot from the CD-ROM, run Recovery Console, and enter this command:

|

```
expand D:\i386\gpedit.ms_ c:\windows\system32
```

|

| If your CD-ROM drive isn't D:, substitute the appropriate drive

| letter.
