Here's some info –

>From an Administrator account, click Start, Run and enter
CONTROL USERPASSWORDS2 Remove the check mark from Users
must enter a username and password and click Apply.
Follow the prompts.

Or

- . Go to the Start Menu and the Run box.
- . Type in the following:
 control userpasswords2
- . now click OK
- . In the new Windows that appears select the account
you wish to make the primary logon.
- . Now uncheck the "Users must enter a username and
password..." box.
- . Hit Apply and a dialog box will appear asking you
to confirm the selected users password.

Click OK.

The changes will work the next time you restart your
computer.

OR
