I have already done that and that did not fix the problem!!

>-----Original Message-----

>Try the following:

>1. Click on My Computer and open the control panel.

>

>2. Open the Performance and Maintenance or

> Administrative Tools.

>

>3. Double-click on Services, and scroll down to Messenger.

>

>4. Double-click Messenger and click the Stop button

> which will stop the service.

>

>5. Change the startup type to Disable.....no more

> Messenger popups. This NOT MSN Instant Message service

> called Windows Messenger but this IS a component part

>of

> Windows XP only for Network Administrators to send

> broadcast messages to network users.

>

>This should be a fix!
