If you are using AOL as your ISP, you need to minimize your AOL browser and launch Internet Explorer, then visit the Windows Update web site while using Internet Explorer.

Try the following solution from the Windows Update Troubleshooter:

<http://v4.windowsupdate.microsoft.com/troubleshoot/>

Select:

"Problem Downloading/Installing a Software (Non-Driver) item"

Follow steps under:

"Install stops at 0% when using the AOL Browser"

While using the Internet Explorer browser, try downloading and installing the patch again:

Blaster Worm: Critical Security Patch for Windows XP (32-bit version)

| Hi!

| Tried everything you said & still have the problem. I
| hope Microsoft reviews these posts & fixes our problem. I
| noticed alot of people are having the same problem as I
| am. I thank you for your help! Haven't gotten booted
| yet, maybe this will solve itself! My fingers are crossed.

| Have a good day.
