>As a matter of fact there is such a group and it's called

>just that, "Power Users" group. Assuming you have XP

>Professional and you've logged in as Administrator or

>equivalent, go to Computer Management (located in Control

>Panel), expand the "Local Users and Groups" folder and

>right click on the Users folder. Click New User. Fill in

>the details and click Create. Once complete you will see

>the user in the Users folder. Double-click the user

>account and on the "Member Of" tab click Add, then find

>the Power Users group and add the user to that group.

Hope

>this helps.
