>-----Original Message-----

>okay, so i start up my computer, and i get some kind of

>pop up. its not the messenger service because i

>downloaded it. and the pop up doesnt load totally

because

>im not even on the internet.

>

>but if i am on the internet, i will eventually get that

>pop up again and it will load the page. also im not even

>on any WEBSITES for me to get these stupid pop ups!

>

>i was thinking maybe i have some sort of virus but my

>virus scan says i am clean. so i think possibly im

>running some program in the background that i dont know

>about which is causing this.

>

>>>>is there any way to tell what might be causing this?

<<<<

>PLEASE HELP ME! thank you!
